**Just £2.91 each.**

**ELECTRICITY**

Electricity is expensive and needs to be well managed, a few simple measures can lead to dramatic savings. The guidelines below will help you make more efficient use of electricity. With your help and co-operation we can save energy and money, which will contribute to the profitability of the company and help protect the environment.

- Switch off all computers, printers and associated equipment when they are not in use.
- Switch photocopiers to stand-by mode if they are not in use for long periods.
- The use of unauthorised portable electric heaters is prohibited.
- Switch off electrical equipment when it is idle.
- Switch off all ancillary equipment when the equipment it serves is not in use.
- Use cheap rate electricity by charging fork lift truck batteries overnight.
- Air-conditioned computer rooms should be maintained at the correct temperature not at unnecessarily low temperatures.
- Turn off lights when leaving a room or corridor.

**ENERGY SAVERS**

\*Last one out, switches off rule will ensure that electrical equipment is not in use when the premises are not occupied.
